DETAILED ACTION

Response to Amendment

1. This action is in response to amendment filed June 26th, 2003.

REASONS FOR ALLOWANCE

2. Claims 1-17, 19-28, & 30-37 are allowable over the prior art.
3. The following is an examiner's statement of reasons for allowance:

With respect to claims 1 & 20, Yu et al 6,654,103 B2 disclose a polarization mode dispersion system comprising a reset-free polarization controller (310) and a second polarization rotator (220) as a limited range adjustable retarder. However, Yu et al does not disclose nor suggest that the continuously adjustable retarder having a response time longer than that of the limited range adjustable retarder. As a result, independent claims 1 & 20 and dependent claims 2-17, 19, 21-28, & 30-37 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Chen et al 6,522,456 B2 disclose a polarization control device.
